# INTRODUCTION

STRX.FINANCE is a liquid staking protocol unlocking the liquidity of staked assets.

TRX Holders can now stake their assets while maintaining the liquidity of these assets.

-  Stake TRX to obtain SFI Token
-  Earn rewards of upto 40%
-  Participate in DeFi while holding SFI Token
-  Higher ROI
-  Audited and Secured

# About STRX Finance

STRX.FINANCE is the first TRON Blockchain liquidity-staking protocol, aimed to offering consumers with a simple and easy-to-use DeFi product with reliable returns.

STRX.FINANCE, as an underlying asset protocol on TRON, would want to allow users experience the composability of DeFi protocols in a single click. STRX.FINANCE is predicted to become the next highly-recognized asset on TRON to construct the whole ecosystem on-chain and stimulate the flow of asset value, in addition to the juicy returns it may deliver.

STRX.FINANCE's smart contract has been audited to ensure safety of the funds.

# Staking Guide

01

Go to <https://strx.finance> and Connect your wallet (TronLink / imToken / TrustWallet) to the Mainnet Application.

02

Select the "Stake" tab, input the amount of TRX you want to liquid stake, then click the Stake button at the bottom and confirm the transaction on Tronlink.

03

Based on the exchange rate, STRX.FINANCE will issue SFI Tokens to the user's wallet (you can see the on-going exchange rate in the Stake tab).

# Unstaking Guide

01

Go to <https://strx.finance> and Connect your wallet (TronLink / imToken / TrustWallet) to the Mainnet Application.

02

Select the "Unstake" tab, input the amount of SFI Tokens you would like to Unstake, then click the Unstake button at the bottom and verify the transaction.

03

STRX.FINANCE will create a new Unstake request for TRX based on the exchange rate (you can see the on-going exchange rate in the Unstake tab).

# Claiming Guide

**01**

Go to <https://strx.finance> after 3 days of creating Unstake request. Connect your wallet (TronLink / imToken / TrustWallet) to the Mainnet Application.

**02**

Click on “Claim” tab to check details then Click on “Claim” button once the waiting time is over and confirm the transaction in your TronLink wallet.

**03**

Once the transaction is confirmed, you will receive the Unstaked TRX directly into your TronLink wallet.

# What is Liquid Staking ?

The STRX liquid staking token enables TRX holders to stake their assets using the STRX.FINANCE staking interface.

Users are given SFI Tokens, which are based on an exchange rate basis (similar to the cToken idea used by the Compound).

As staking incentives accumulate in the background, the value of STRX rises against TRX.

# STRX Liquid Staking

The TRX deposited by the user on the STRX.FINANCE platform is allocated to the Staking Pool contract.

STRX.FINANCE borrows TRX on a daily basis and freezes any deposits made to the StakePool contract, voting them to the TRON validator set.

When users deposit TRX into the Staking Pool contract, they start receiving staking rewards, which are represented by an increase in the SFI token's exchange rate (c-value).

# How STRX Finance Earns Rewards?

Voting for SR and Participating in Consensus

Renting Energy to TRON Users

Renting Bandwidth to TRON Users

0.5% Fees for Emergency Stakers

# Let's Meet Resource Manager

Only Resource Manager can Borrow TRX, if multi-signed and approved by others.

Rewards obtained through voting goes to the staking pool contract.

Borrowed TRX will be used to freeze TRX and vote for Super Representatives.

Resource Manager rents TRX to users in order to generate extra yield by freezing TRX.

# Why STRX.FINANCE?
